All-

Please see Nate Laps comments below. Both our land agent and Styke team member encountered Mr. White today and were told to stay off of his property.

Jay - I have verified with Mr. White and his family, who have been present all day have expressed there has been no interference in the easement or even near the easement. This is the first time the Whites have heard about the issues and have not interfered with construction operations.

Any further question feel free to contact me,

Thank you,

Mr. Laps,

Chuck white of Chuck's Rig repair of the above referenced tract, is not allowing access to our right of way on his property. Mr. White has also constructed a new fence across out right of way and stated to our right of way agent that no one is to step foot on this property or touch his fences unless he is in jail. We then had a contractor go out to the property to check on equipment that is stationed on the property. Mr. White met the contractor at the fence with a gun on his hip and informed him that no one was to step foot on this property. Please contact your client and ask him to step aside so we can go to work.

Thank you,
